

Context

The RENFORESAP project is coming to an end. It is therefore an opportunity to look back on the actions carried out during these 3 years of collaboration and on their outcomes. We can also benefit from the presence of the consultants to have an overview of each of the 4 thematic areas and the recommendations drawn from their work.

Objective

The objective is to give the floor to the partners, the consultants and members of the network on the work accomplished during these 3 years.
